class TestInheritance  
{  
public static void main(String args[]){  
Dog d=new Dog();  
d.bark();  
d.eat();  
}  
}  
class Animal{  
void eat(){System.out.println("eating...");}  
}  
class Dog extends Animal{  
void bark(){System.out.println("barking...");}  
}
```

OUTPUT

```
barking...  
eating...
